St Mary's House of Welcome provides basic essential services to people who are chronically homeless and experiencing poverty, severe and persistent mental health issues, and those who are extremely isolated and socially marginalised.

Our open-door policy means we are often the first point of contact for people when they need a place to eat, wash and access essential services.

In addition to basic services, we also provide case management, psycho-social support and a comprehensive social inclusion program.

Your gift will directly help some of the most vulnerable people in our community.
